Technical specifications

Following is the technical specifications of the PE measurement setup for bulk samples.

PE measurement System

- Field 5KV for all models
- Resolution according to option selected above
- Fatigue up to 20th order of cycles
- Resolution 16 bit
- Temperature RT- 400 degree with PID control
- (Silicon oil capacity 250 degrees)
- Furnace and sample holder for bulk
- Complete data transfer to standard software like Origin xls.
- Full PC controlled operation using blue tooth wi-fi operation using software installed on a windows 10 laptop or windows PAD
- (PC/PAD/Laptop to be provided by user of their own choice).
- 19 inches rack mountable unit
- Silicon oil 1000ml
